Q *How has living in the FAIRMONT neighborhood affected the lives you you, your friends and your family members?*

A “We like that you don’t have to go outside the neighborhood to find a good neighborhood, our family enjoys visiting.”

Q *What is your opinion of living in a culturally diverse neighborhood?*

A “We believe living in a culturally diverse neighborhood is essential to thriving. To not be exposed to diversity is limiting growth as a member of a neighborhood.”

Q *Do you have any firsthand experiences about the neighborhood you would like to share?*

A “When we first moved into our home, we were frequently welcomed by neighbors as we walked our dog. It shows that residents have control of the experiences in any neighborhood.”
